## Science Manager

A science manager position is available in the Neural Stem Cell Lab led by Prof. Stefania Corti. The Neural Stem Cell Lab has specific longstanding experience in research in neuromuscular disorders, especially focused on the stem cells and cellular/molecular therapeutic approaches to find new approaches to understand the mechanisms of neuromuscular disorders, mainly motor neuron diseases, and to propose therapeutic options. The Laboratory is located at IRCCS Ca' Granda Foundation, Maggiore Policlinico Hospital, Milan and is part of the DEPT Department, Neurosciences Section at University of Milan. Biologists, scientists, and clinicians collaborate to find new approaches to understand the mechanisms of neuromuscular disorders, mainly motor neuron diseases. The lab has established national and international collaborations with research groups located in Europe and in USA which increases the complementarity and synergy of the research team.

### Activities of the candidate will include:

- o Management of technological transfer (patent and/or connection with industrial partners/ companies);
- o Supporting scientific collaboration network and connection with Institutional offices;
- o Writing and editing mutual transfer and/or confidentiality agreement;
- o Supporting drafting and management of grant applications;
- o Participating in the organization of scientific events;
- o Assisting in other scientific management activities, as needed.

We are looking for a person with the following attributes to join our young and dynamic team:

- o Good writing skills in English;
- o A degree in life sciences
- o The ability to interact with scientists and other professionals at different levels
- o An outgoing person who is motivated, reliable and flexible, and who can work both independently and within a team-based service

Your prospects: We offer an interesting position in a growing international institute, remuneration is according to your experience and we offer vocational training opportunities. The position is initially for 1 year, with the possibility of extension. Starting date for the position is January 2022 or later.

To apply, please email a cover letter, your CV and references. Informal enquires should be addressed to Prof. Stefania Corti (stefania.corti@unimi.it).
